New Jersey Agricultural
Experiment Station
COOPERATIVE EXTENSION
ATLANTIC COUNTY

Garden Education Series 2024

February 6 - May 14
Tuesday Evenings, 6:00PM

Would you like to better understand the science behind how things grow?

Topics include but are not limited to: botany, soils, entomology, composting, vegetable gardening, small fruit, tree fruit, woody plants and trees, herbaceous plants, turf, plant pathology and pruning. *

(All classes will be recorded and available for later viewing by registrants.)

COURSE INCLUDES:

- 16 live online classes with content experts
- 5+ pre-recorded webinars
- Learning circles and discussions with local RCE horticulturalists
- Additional elective content

PROGRAM COST:

\$250

** This series is a part of the educational training components to become a Certified Master Gardener Volunteer in Atlantic County. Please contact RCE Program Coordinator for more information prior to registering online if you would like to use it for this purpose. Volunteer commitment is not required to attend this course .*
